DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-22** are allowed.
2. The following is an examiner's statement of reasons for allowance: Okubo teaches a scoring method and scoring system. The prior art of record does not teach a test management server for a test system that in response to a request transmitted from the first computer, select from the problem database n problems to be marked in such a manner that allows a partial score r_j to be given to the testee's response to a problem j , and transmit the selected problems to the first computer, wherein $0 \leq r_j \leq 1$ with 1 being a full mark and $1 \leq j \leq n$; wherein, in estimating the ability, the partial score r_j is treated as an average value of true-false responses which the testee latently indicates to latent problems to which the testee indicates the correct response of 1 or the wrong response of 0 and that are repeatedly performed s_j times, and when $P_j(\theta)$ is the probability that the testee can correctly answer the latent problem and when $Q_j(\theta)$ is $1 - P_j(\theta)$, the ability θ of the testee is estimated using the logarithmic likelihood $l_{\text{part}}(\theta)$ represented by Equation 40.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Okubo teaches a scoring method and scoring system.
